SPECIFIC DOCUMENTATION

1

## **How would you describe your function and your role within A&R ?**

I am primarily responsible for the layout of technical documents.

2

## **What kind of projects you are currently involved in? For you, what is your favorite or most interesting project so far?**

I organize and maintain troubleshooting note sheets that support customers in resolving any potential issues they may encounter with our equipment.

---

## Main professional challenges :

My challenges are both professional and personal.

I live with a progressive illness that has a significant impact on my daily life.

For me, working is not only a life goal, but also a source of happiness, resilience and strength.

Work gives me the motivation to keep moving forward and to continue fighting in the face of the illness's progression.

My challenge is simply to keep working and to continue doing what keeps me standing.

---

3

## What aspect of your job do you enjoy the most?

What I love about my job is when my colleague Luc Brandt (Documentation Manager) thanks me for my work.

It makes me feel useful and I feel that my work has saved valuable time for customers and technicians.

---

# I'm happiest when...

I receive encouraging feedback from my technical colleagues thanking me because the layout of the documentation helped them understand the issue quickly and easily.
